

A construction worker wearing a yellow high-visibility vest over a blue long-sleeved shirt and grey work pants is holding a large, light-colored concrete block. The worker is also wearing yellow work gloves. The concrete block has a sign attached to it with blue text. The background shows a construction site with scaffolding and a cloudy sky.

**ANNOUNCING THE
NEW CERTIFICATE
IN SUSTAINABLE
CONCRETE**

SUSTAINABLE CONCRETE FORUM

As part of the industry's signed commitment to transform the sustainability skills base of the industry by 2012, the Sustainable Concrete Forum has endorsed a new Certificate in Sustainable Concrete comprising two one-day and four half-day modules to be run in conjunction with the Forum and Proskills by the National Construction College, part of Construction Skills.

Details of the first modules are:

April 23 Sustainability for managers (full day)

April 29 Waste management (am); water management (pm)

April 30 Social issues management (am); energy management (pm)

May 27 Environmental management systems and responsible sourcing (full day)

This first series will be run in Leicester at the BPCF offices with NCC appointed lecturers. Cost per person will be:

£130 plus vat for one day courses

£75 plus vat for half day courses

Costs include refreshments, lunch and course notes.

For more information visit www.sustainableconcrete.org.uk

All modules will carry CPD status – all six must be attended to attain the Certificate. Further dates will be reserved in the summer once we have a better idea of demand.

If you would like to book a place, please complete the booking form and send it to British Precast. Invoices will follow.
